### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: MTA Wireless ensures that all of our sales and service staff are trained to identify hearing aid compatibility for each phone in order to assist customers in their phone selection. In addition the hearing aid compatibility rating for each phone is clearly provided on our website.

### Methodology for Functionality Levels

Section 20.19(d)(4)(ii) allows service providers to set functionality standards for phones offered. MTA Wireless has set a 4 Level ranking schedule for all phones. Level 1 is for phones with basic features: voice/text. Level 2 is for phones with basic features plus camera, bluetooth and/or internet capabilities.

Level 3 is for phones with basic features plus camera, bluetooth and/or internet capabilities. Would also have increased RAM, expandable memory, music & video, and higher resolutions color displays. Level 4 is for PDA models which usually have more advanced features: higher memory capacity, touch screen user interface, faster processors, email, additional Bluetooth functionality, music player, enhanced camera and video, and memory.
